Our white elephant house rules

12 players · gifts about $25

1. Everyone brings one wrapped gift worth about **$25**. No names on the gifts. Put them all on one table.
2. Everyone draws a number from 1 to 12. Your number is your turn. Keep it until the game ends.
3. Player 1 opens any wrapped gift and shows it to the room.
4. On your turn, either **open** a wrapped gift or **steal** an opened gift from someone else.
5. If your gift is stolen, you choose straight away: open a wrapped gift or steal a different opened gift. Then play passes to the next number.
6. **No steal-backs:** you cannot steal back the gift that was just taken from you on the same turn.
7. **One steal per gift per turn:** a gift can be stolen only once during a single turn, so the chain always ends.
8. **A gift is frozen after 3 steals.** Its last owner keeps it, and nobody can steal it again.
9. Opened gifts stay out in the open, in front of their current owner.
10. **Final turn:** when the last gift is opened, player 1, who had no gift to steal on the first turn, may swap their gift for any gift that is not frozen. The game ends there.
11. Be a good sport: no hiding gifts, no deals, and every gift goes home with someone.
